

MEETING CONTENT AND BACKGROUND

At this meeting the speakers will each make short presentations and try and address the following points together with any questions from the audience. After the presentations there will be a question and answer session with a panel of the speakers and other professional representatives.

1. Will improved coding of procedures reduce errors and confusion?
2. Should insurers be dictating clinical guidelines or auditing clinical results?
3. Do insurers really need audit data or is this an excuse to impose restrictive networks?
4. Can the profession and the hospitals provide outcome data and where does revalidation sit in this?
5. What do insurers mean by "Case Management"?
6. Are insurers moving to a fixed fee schedule for new consultants?
7. What price "clinical freedom" or is total Managed Care inevitable?
8. Are consultants behaving fraudulently as is sometimes alleged?
